We have the pleasure of introducing

IRIS PLUS Submarine LED lamps

Very bright LED lights for exclusive submarine use. Robust and elegant polycarbonate case with a small footprint. They allow a quick and cheap installation (no connection to the anodes). A single small 11mm hole is needed for the power cable. Otherwise, it is possible to avoid such hole using the AV0417 adapter. The frames are detachable and can be chosen in white, black or chrome.

Specifications
Completely waterproof (IP68) Mounted on the surface of the hull No connection to the anodes needed (big savings of time/money during installation) High intensity (2360 lux at 1m) Emission angle of 10° White light, temperat. 8000K Robust polycarbonate case Flexible cable, 2m long Power supply 10...30 Vdc Low power consumption (6W), long life White frame (black and chrome available) No maintenance required
