We have the pleasure of introducing

DIMMER ACD002

Electronic dimmer for controlling LED lamps in voltage. Compact in size, can be mounted on a standard 35 mm DIN rail. It can be used to dim the lights from any of the switches in the room, driven by a single button. Quick installation and easy operation: the same button dims the lights up/down or switches them on/off completely. The current light intensity is saved and restored when the lights are switched back on. It can be configured as Master/Slave.

Specifications:

Fine tuning of light intensity 0...100%
Supports LED lamps
Quick and cheap installation
Bears loads of up to 100W
Configurable as Master/Slave
Power supply 12/24 Vdc
Low power consumption 20 mAdc
Case: 2-module 35 mm DIN rail
Dimensions: 42x41x12 mm
